

QUANTUM HEALTH WILL HELP YOU PUT THE BRAKES ON THE CADILLAC TAX

ARE YOU HIGHLY CONCERNED ABOUT THE "CADILLAC" TAX? 70% OF YOUR PEERS ARE.

Roughly half of large U.S. employers will begin to hit the excise tax in 2018. The excise - or "Cadillac" tax - is a 40% tax on the value of all affected healthcare programs a participant elects that exceed certain dollar thresholds in 2018 and beyond. This tax is an element of the Patient Protection and Affordable Care Act (PPACA).

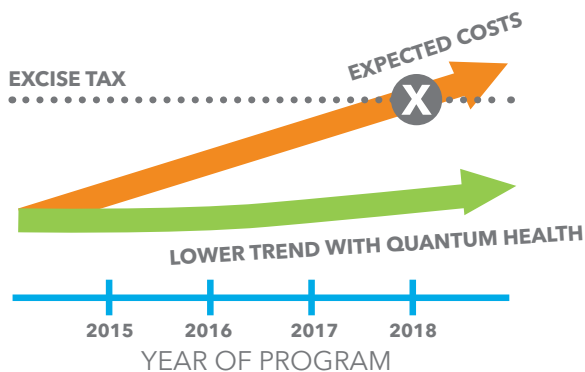

WHAT DOES THIS TAX MEAN FOR YOUR COMPANY, AND HOW CAN YOU REDUCE IT OR AVOID IT?

ENGAGE QUANTUM HEALTH

Quantum Health's unique model can reduce up to 30% of wasteful spend immediately and continue the trend below the excise tax threshold. Our recent data shows per member costs are on average 9.7 points lower than expected in year one, with up to 20% in savings through year three.

Net of plan design, network and other estimated actuarial adjustments. Excludes Quantum Health fees.
